

# WELLINGTON CABLE CAR MUSEUM

## **Australasian award for Grip Car 3 restoration** November 2006

Photo: Mark Coote

The professional conservation and restoration of Grip Car 3, currently on display in the museum's lower gallery, has attracted an achievement award from the Council of Tramway Museums of Australasia (COTMA). COTMA's objective is to promote and support excellence in tramway heritage.

The restoration project took nine months and was carried out at the Wheelwright Shop in the Wairarapa under the supervision of a heritage transport expert commissioned by the museum and in line with a detailed conservation plan.
